Git, GitHub, VS Code, Linux/Ubuntu, Chrome Dev Tools, Figma, NPM, Webpack, Microsoft Teams, Zoom, Slack

APPLICATIONS DEVELOPED

The Bookshelf Nook

A full stack application that allows users to search, view, and add books to their book library.

- Developed a full-stack web app using React, Node.js, Express.js, and PostgreSQL for book search and management.
- Integrated Google Books API to fetch and display real-time book data, enhancing the user experience.
- Implemented secure and seamless user authentication using JSON Web Tokens (JWT) for registration, login, and logout functionalities, ensuring data privacy and a personalized user experience.
- Designed a responsive and intuitive user interface with Tailwind CSS and React hooks, providing a dynamic and engaging experience across various devices and screen sizes, boosting user satisfaction and engagement.

What's For Dinner

A full stack web application for Home Chefs who want to track meals they made and the ingredients they used.

- Developed a full-stack application with Node.js, Express, and PostgreSQL to manage user dishes and ingredients, supporting full CRUD operations.
- Built an interactive React frontend to manage and display dishes and ingredients with real-time updates, utilizing TailwindCSS for responsive design and styling.
- Implemented complex SQL queries and transactions to maintain data integrity and handle foreign key constraints.
- Implemented error handling and user feedback for loading states, fetch errors, and form validation, enhancing user experience.

PROFESSIONAL EXPERIENCE

Billing Administrator

Prober & Raphael

January 2023 – June 2024

Woodland Hills, CA

- Collaborated with a cross-functional team of three in Foreclosure and Bankruptcy, contributing to the creation of pre-approval invoices and taking full responsibility for their meticulous reconciliation, ensuring accuracy and compliance.
- Flexible remote work arrangement, combining both remote and in-office responsibilities.
- Demonstrated adept multitasking skills by navigating seamlessly between 5+ company software applications and websites.
- Processed over 300 invoices per month with 99% accuracy, showcasing a commitment to precision, compliance, and established procedures.

Customer Solutions Specialist

Drive DeVilbiss

June 2021 – November 2021 | Remote, CA

- Effectively worked independent remotely and with a remote team of nine, ensuring productivity and task completion.
- Diagnosed product malfunctions and recommended effective solutions to meet customer needs.
- Averaged 40 daily calls, addressing customer inquiries, explaining product features, and providing quotes.
- Conducted follow-ups with providers to ensure accuracy and enhance customer satisfaction.

EDUCATION

Part-Time Web Development Program

2024

LearningFuze 

- Programmed 800+ hours in a simulated agile work environment across three 12-week modules.

Bachelors of Science in Business Marketing

2015

Cal Poly Pomona 

- Achieved the distinction of First Place as CCAA Division II Outdoor Track and Field Conference Champion, demonstrating excellence as a student-athlete and honing skills in scheduling, discipline, and commitment.
- Embodying the motto 'Learn By Doing' to integrate Business Calculus, Data Analysis and Statistics, Digital Marketing, Project Management, and E-commerce classes into real-world practical applications.
